

NOVALOK

ADVANCING INNOVATION

STRONG | DURABLE
VERSATILE SYSTEM

Choose from a wide range of stock components to suit your storage requirements.

Zincguard.

A strong medium duty, long span shelving system, with a very durable anti corrosive finish.

Zinc guard is very popular because of its versatility. You can make almost any shelf, trolley, bench or workstation from the standard components available in this system.

Zincguard is a system that is hard to beat. It is more versatile than any other shelving product on the market. From the huge range of stock components, we can solve almost any storage related requirement. Shelves, racks, benches, desks, trolleys, security cages, display stands, dispenser for rolls of wire, even tiered seating platforms, it has all been done. Limited only to your imagination.

Zincguard's wide range of options aims to accommodate any combination of stored goods requirements.

ZINGGUARD SHELF OPTIONS

- Wire Racks, 'Novapol' Plastic Coated
- MDF Board
- Plywood
- Meltica Board
- Plastic Novex Shelf Panels
- Galvanised Steel Panel
- Stainless Steel Panel

Ideal for cool-rooms/freezers. Zincguard is a lower cost option compared to the popular Duoguard range and is often used for flower storage. Zincguard is fundamentally the same as Duoguard but without the powder coating. Zinc plating provides and excellent corrosion resistance which will not chip or scratch and is the industry accepted standard finish for coolroom shelving.
