## MMS

Trolley Systems.

### CONFIGURATIONS

Multiple configurations

### ACCESSORIES

A variety of fully integrated accessories.

### VERSATILE

Versatile functionality

### HYGIENIC

Easy to clean

**MULTIFUNCTIONAL TROLLEY** has an internal frame made of steel profiles which gives great strength, and the outer (surface) in plastic polymer guarantees lightness and manoeuvrability, being easy to clean and disinfect. The accessibility to the product stored in the trolley interior is accomplished with front drawers fitted with total removal telescopic runners, and versatility in functionality is defined by a number of accessories available, which are integrated into the top, side and rear of the trolley.
